Bill Drawn to Loosen New Haven
Company's Grip on Trolley Lines.

Governor's Message Stops Legisla-
ture's Proposed Pro-
rogation.

Governor Callahan today sent to the House of Representatives a message urging the passage of a law to prevent the holding of street railways by steam railroads. This is in direct opposition to the merger bill, which was recently considered and referred to the next Congress. It will more specifically prohibit the New York, New Haven & Hartford Railroad, which now controls many street railways, from doing so.

Follows American's Demand.

The action on the part of the Governor, the Attorney General and the other Republican leaders follows the filing of a petition with the Attorney General on June 14 by the BOSTON AMERICAN that he proceed at once, under the present law, against the New York, New Haven & Hartford Railroad. It is being taken outside that indicated by this newspaper, and a message, without having been taken into consideration by the Legislature will have to remain in session for some time longer.

ACCUSED OF THEFT; CLAIMED BY 2 AS HUSBAND

Grocer's Clerk at Walpole Now
Wanted on Charge of
Entering Store.

WALPOLE, June 22.—The State police are looking for William B. Shaw, known as William Wilbur Shaw, on a charge of breaking and entering and larceny of \$100 at the store of Elmer A. Spear, grocer, for whom Shaw was clerk. At the same time a woman, who says she is Mrs. Wilbur B. Shaw, is also seeking her husband, and expressed much surprise when she was told that Wilbur was married in December, January 8, to the pretty widow of John W. Waples. With his wife and three children, Wilbur left his home in Walpole, Mass., for a house on South street, as he had written her.

Mr. Edward W. Phillips, general manager at Walpole, said that BOSTON AMERICAN reporter, Shaw, came to him in regard to an advertisement in the Boston Herald. He was told that he should call a good tailor and make a suit. He was told that he should call a good tailor and make a suit. He was told that he should call a good tailor and make a suit.

Note Book Containing Names of Members of Legislature and Amount of Bribe Paid to Each Turned Over to the District-Attorney by Gethro.

A mysterious notebook containing the names of twenty-two men out of the "block of fifty," which has figured so prominently in the bribery hearings at the State House, has been turned over to District Attorney Moran by Frank J. Gethro, who was expelled from the House on Thursday.

Refusing to be a scapegoat while others in the legislative bribery investigation are being whitewashed, Gethro has made a clean breast of all he knows, and it is said that startling exposures are to follow, involving many members of the House and several lobbyists.

Mr. Gethro, with his counsel, Daniel H. Oakley, called on the District Attorney late yesterday. It is believed that Mr. Moran will call a special sitting of the Grand Jury in July, in order to clear up the legislative scandal before the end of the August term.

Other Members Involved.

Into Mr. Moran's hands Gethro has placed a bundle of documentary evidence which comprises correspondence and other data. That this involves other members of the Legislature is obvious. He also gave verbal evidence to back up his assertions.

Gethro's memorandum book will call much worry to twenty-two men. The book has their names in it. There are other names, and they are nearly all Republicans. It is said that among these names are many of the famous "block of fifty" people concerned in the Inland Street bill's defeat and the attendant scandal.

There is other data in this little book, all of the greatest importance. It is also believed that Gethro will be the star witness before the grand jury. It is said that certain information concerning this list of names was conveyed to Speaker Code, but nothing seems to have come of it in Mr. Cole's hands.

With the evidence that Gethro alone has turned into Mr. Moran's office it is believed that there is now enough on hand to keep the grand jury working around through the July and August sessions. This turning of "State's evidence" by Gethro is most pleasing to Mr. Moran, the District Attorney will not now have to depend upon a study of the testimony submitted at the investigation. Gethro's cooperation has changed the whole attitude of things, and Mr. Moran's task is made easier. The principal difficulty now is that of "immunity," which is feared that some of the legislators will demand.

Before proceeding with the facts disclosed by Gethro, Mr. Moran will have the legislative testimony and see how far the evidence will carry.

POLICEMAN ON BICYCLE GETS FLEET FUGITIVE

Two Pals in Raid on Restaurant
Make Good Their Escape
in the Dark.

Four Gethros of North Adams was arrested on Huntington Avenue early today after a strenuous chase in the darkness by Police Officer William H. Brigham. The chase was made in the dark, as the fugitives were watching outside of Jeremiah Donaghy's restaurant at No. 150 Huntington Avenue while two pals were going through the middle of the place.

According to Gethro, he noticed that the station agent in the Crossing Crossing station also figured in the matter. He chased the two pals, but could not catch them. Gethro, being on a bicycle, finally rode Gethro down.

Refusing to be a scapegoat while others in the legislative bribery investigation are being whitewashed, Gethro has made a clean breast of all he knows, and it is said that startling exposures are to follow, involving many members of the House and several lobbyists.

EXONERATE BRIGHAM IN PROVIDENT CASE

Dame Fashion's Most Extravagant Decree That the Sunshade Shall Match the Style of the Dress Has Resulted in DREAMS OF BEAUTY IN THIS SUMMER'S PARASOLS

Can Be Found in Every Design and Shade

"FASHION'S decree, dainty corollas that shelter other previous blooms," is the way an appreciative man approaches the sunshade. It has been a round of the shops, it is nearly necessary to say.

Parasols are neither this season than they have been in years.

They are also more varied and in most instances more practical.

Efforts are multiplied to make the parasol match the style of the dress, and it is not surprising that it is necessary to possess a veritable arsenal of sunshades of all kinds and for all occasions in order to be suitably provided for all circumstances.

For summer wear the sunshade is of plain thick silk with rustic bands of natural spider or cherrywood, and leather band that may be twisted round the wrist. For the latter used over the sunshade of lacy silk is still in vogue.

It is made in all shades, from the palest fawn to the most richly mounted ones, with the colors contrasted in charming harmony.

Fantastic Handles
Such parasols have "correctly fantastic" sticks in exotic woods, with gold designs encircled in the wood. The handles are generally straight, with ornamental tips. Some represent a sort of mistic

and are adorned with pearls; others have arabesque ornamentations. There are corkscrews carved in white lacquered wood, the whiteness of which is relieved only by a yellow look.

In the fancy parasols this year's models attain an artistic character hitherto unknown. There are delicate combinations of Pompeian colors and Alençon lace on a snowy foundation of mousseline de soie.

Lace and Muslin
For those sunshades artistic handles are suitable. Some have round knobs or carved gold match-ends, increased with precious stones.

Another fine example has a knob with acanthus leaves and pearl necklaces.

Another has a gold clutch and whereon two red-eyes mice are running after each other.

Some parasols with folding handles for carriage use, are being reintroduced. They are made of cottage silks, laced with genuine point lace, and are essentially articles of "practical luxury."

The fingers, using an upward and outward stroke. All the cream the face has not absorbed must be wiped off with water.

In the day of the scientific ideal, experts are being done to make perfect complexion as well as in surgery. Prescribed the face of every woman, and the complexion, can be obtained for all skin, without future trouble to the complexion.

A double chin, the extra feature that all women pray to be delivered from, is prevented and cured by the delicate touch of the fingers. Superfluous hair, another unsightly feature, is removed by electricity.

Success depends in this, like surgery, upon the intelligence and skill of the operator.

"What do you mean?" What said "Mr. Farmer's friend from the country, of course—what could I mean?" cried Mrs. Hunt, a little puzzled at the sudden change of the scene of the two men. "What you expect him? He was not put with the parsonage as at a Buffalo Lodge. Mr. Farmer's friend from the country, he says, that of course."

"No old fellow," whispered Mrs. Hunt in voice suddenly hoarse with passion. "He was not put with the parsonage as at a Buffalo Lodge. Mr. Farmer's friend from the country, he says, that of course."

A Narrow Escape
He followed his associate, who had darted into the room at the end of the passage to find it empty.

"My heavens, what does it mean?" cried the fat man came up to him. "What have they discovered, and where is the man who was so quick with the password? How did they get hold of it?"

"Have you been letting the cat out of the bag, or has that foot of a woman been rickling with that tongue of hers?" Hunt shook off the man's grip.

"Don't be a fool, you said, Farmer! I know no more than you how it happened, that if it was quarrelled."

"However he found out the password, by Heaven, he'll find it a hard job getting out of this crib than he did getting into it!" cried Farmer.

How to Be Happy Although Married

HERE are twenty rules for newly married people, too for brides and men for grooms, which have proved never-failing prescriptions for married happiness. The wife who follows her designs as here set forth will find the direct path to wedded bliss, while also husbands who faithfully adhere to the ten rules laid down for his conduct will speedily learn how to be happy, though married.

For the Husband

1. The husband should keep no secrets from his wife.

2. He should not ask his wife to live under the same roof with the mother-in-law. Make your own home.

3. He should give a stipulated sum of money every week to his wife for house hold expenses. Don't keep your wife with nothing, but keep her pocketbook. Spend out and enjoy some little piece of money.

4. Don't nag at any time. When you have had a "bad" time and off in sleeping mood. Every husband should have a night's sleep.

5. When he has a new dress and put on it, he should not be interested in it and keep it together. Just as comfortable as possible, and your comfort and not your wife's.

6. Never talk faint with her in company. If she appears in a dead-end, open a public occasion, don't talk her with it.

7. Don't make her feel after you have married to her for some time that you support her and she does nothing. Let her work together for the comfort and support of her life.

8. Don't keep your wife alone evenings. You need not stay at home all the time. When you are out, go out with your wife and then run off, presumably to see a friend.

9. Don't bring Tom, Dick and Harry home to dinner without informing her. She has some pride about her table, and you must respect it.

10. Don't complain about household work. When you are out, go out with your wife and then run off, presumably to see a friend.

11. Let the economy of the home life be a matter of course. Don't let your wife know that you are saving money.

12. Don't be a bargain hunter. What you want is a bargain hunter. What you want is a bargain hunter.

13. Don't be a bargain hunter. What you want is a bargain hunter. What you want is a bargain hunter.

14. Don't be a bargain hunter. What you want is a bargain hunter. What you want is a bargain hunter.

No Need to Have Ugly Wrinkles

IT is absolutely necessary for a perfect face skin are fresh air, sunlight and moisture. The face skin is a delicate, sensitive organ, and it is necessary to keep it in perfect health.

"Have you been letting the cat out of the bag, or has that foot of a woman been rickling with that tongue of hers?" Hunt shook off the man's grip.

"Don't be a fool, you said, Farmer! I know no more than you how it happened, that if it was quarrelled."

"However he found out the password, by Heaven, he'll find it a hard job getting out of this crib than he did getting into it!" cried Farmer.

"There was a mysterious look on his dark, swarthy face.

"But the cops can't have found out anything. I've been so careful. No one could have been more careful!" answered Hunt.

The man was utterly unmoved, however. "The man who was so quick with the password? How did they get hold of it?"

IF HE COULD FIGHT AS WELL AS HE TALKS HE'D BE A WONDER

NOWADAYS the whisper, "Nerves,"
For a thousand fiblets serves,
Any one who feels its spell
Never, never will be well:
But so long as life
Spends his time in trying "cures,"
DON'T grow faint upon a trip
When the faithless gasbag rips,
Don't turn green when up a stile—
If you fall, you'll die to die,
And your illness, oh, you dread,
Comes to a most modish stop.
